PROJECTS

QR Based Ticket Entry System [Link](#)

- Visitors register, verify their email, log in, and manage their profile and booking history.
- After login, visitors select a date, choose an available slot, enter member details, confirm the booking, and make payment. They receive a QR code for entry.
- The visitor shows the QR code at entry and exit for security verification and check-in/check-out.

Resume Ranker [Link](#)

- The Resume Ranking system allows job seekers to create profiles and upload multiple resumes for different roles.
- Recruiters can post job vacancies and receive applications. Resumes are ranked based on matching percentage with job requirements
- Recruiters control the minimum matching percentage for applications and can message selected candidates.

Spyinte Website [Link](#)

- Developed a fully functional e-commerce website for Spyinte, a child company of Teehzone.
- Ensured cross-browser compatibility and mobile responsiveness.
- Collaborated with a team to deliver the project on time with high-quality standards.
